REACH

Silvertel fully supports the aim of Reach in improving the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances. As a downstream user, the products of Silvertel are non-chemical products that are not designed to release any substance under normal and reasonably predictable application scenarios during their lifespan. Therefore, as per REACH requirements, Silvertel products do not need to be registered

Based on information obtained from our suppliers, this document certifies that NO Silvertel products contain > 0.1% by weight of the Substances of the Very High Concern (SVHC) as listed by the European Chemical Agency (ECHA) under the provisions of Regulation No. 1907/2006, including the candidate list released on 16th July 2019 (201 substances), with exception of Lead, which may be contained in some products via RoHS exemption 7a – Lead in high melting temperature type solders - * See Note 1 below

All new designs and solutions provided by Silvertel will give due consideration of the need to reduce hazardous substances.
